**Address:** Pier rd, Galway, Ireland **Phone number:** +353 83 835 8755  
**Email address:** dantasdeveloper@gmail.com **Portfolio:** www.dantasdeveloper.com

## Profile

---

Experienced iOS developer with over seven years in the field, skilled in UIKit and SwiftUI. Adept at all stages of the software development lifecycle. Known for technical expertise and creating solutions that align with strategic goals. Always eager to learn new technologies and improve my craft. In my spare time, I enjoy creating games, constantly exploring new ways to combine creativity and technology.

## Work Experience

---

11/2023 – present

### Senior iOS Engineer

*FlexManager, Galway, Ireland*

**Key technologies:** SwiftUI, Swift, MVVM, iOS, Firebase

- Leading the complete rebuild of FlexManager's app using SwiftUI and Swift.
- Collaborating with cross-functional teams to design and implement a modern interface.

04/2019 – 11/2023

### Software Engineer

*Cisco, Galway, Ireland*

**Key technologies:** UIKit, Swift, C++, MVVM, iOS, OSX

- Contributed to the development and maintenance of Cisco's cloud-based applications, including the Webex mobile and desktop apps.
- Created a UI framework in Swift to make development easy and consistent between teams.
- Specialized in client-side development, leveraging Swift 5 and C++ to enhance functionality and user experience.

12/2018 – 04/2019

### Senior iOS Engineer

*Routematch, Waterford, Ireland*

**Key technologies:** UIKit, Swift, iOS

- Worked for RouteMatch, which was later acquired by Uber.
- Enhanced the iOS app and improved accessibility for a large-scale payment system used by thousands in the USA and Canada.
- Collaborate with the design team to revamp the user interface, making the app more intuitive and user-friendly.

12/2017 – 12-2018

### iOS Engineer

*ThimbaMedia, Waterford, Ireland*

**Key technologies:** UIKit, Swift, Nodejs, iOS

- Led the iOS development in a dynamic environment, working on multiple projects across various technologies.
- Developed iOS applications using Swift and designed APIs with Nodejs.

01/2017 – 12/2017

### iOS Engineer

*GirtMobile, Galway, Ireland*

**Key technologies:** Swift, Firebase, Sqlite, Push Notifications, Unit Testing

- Developed and tested mobile apps for clients like Clubforce and Gobus.
- Mentored junior developers, sharing best practices, and guiding them through complex technical challenges.
